LA SALLE COLLEGE BULLETIN (USPS 299-980) Volume LXV May 1984 No. 2

Published four times a year, in March, May, June and December
by La Salle College, Olney Ave. at 20th St., Philadelphia, Pennsylvania 19141
Second Class postage paid at Philadelphia, Pennsylvania

General Information

During 1984 there are two Summer Sessions of five weeks each, offering credit courses—Session One, May 29 through June 28; Session Two, July 9 through August 9—and one ten week Summer Session offering both credit and non-credit courses, May 29 through August 9.

Besides matriculated La Salle students, men and women from other institutions are welcome, provided they obtain the approval of their own academic officers and meet the requirements of La Salle College.

La Salle College does not discriminate against any applicant for admission to the college because of race, color, sex, national origin or physical handicap. Admission to La Salle College is based solely upon an applicant's qualification and ability to meet the educational and other established admission requirements.

The staff of the Summer Sessions is selected from the regular full-time faculty members of La Salle College.

Summer Sessions are conducted in air-conditioned classrooms and lecture halls.

Attendance

Attendance at La Salle College is compulsory and absence from class and/or laboratories necessarily affects the final grade. Missed laboratory work and examinations (other than final examination) may be completed only at the discretion of the course instructor.

Any student who, because of unavoidable absence, is unable to take the final examination as scheduled must file a *written* request for a special final examination in the Office of the Dean. No special final examination will be administered without the approval of *both* the instructor and the Dean. Each special final examination is subject to a fee of \$5.00. All make-up examinations must be completed by July 6 for the first summer session and by August 14 for the second summer session.

Fees

(Subject To Change; Final Rates Available In April)

TUITION (PER CREDIT HOUR)	\$108
LABORATORY/COMPUTER SCI. LAB	35
LATE REGISTRATION	10
REINSTATEMENT	50
SPECIAL FINAL EXAMINATION	5

Credit Cards

La Salle College will charge your tuition to your VISA or MasterCard credit card. These cards may also be used in the Campus Store and Textbook Store.

Pre-Registration

All students who intend to matriculate at La Salle College must pre-register by the pre-registration date

published in the Academic Calendar. Please use the appropriate pre-registration form provided at the back of this bulletin.

Tuition invoices are not mailed for Summer Sessions; they must be picked up at Registration.

Final Registration

For the dates and hours of final registration, please refer to the Academic Calendar.

All students, even though pre-registered, must complete the process of final in-person registration: pick up the tuition invoice at Registration, pay all fees, and have the matriculation card validated by the Bursar's Office.

Rules of the College make payment of all fees an integral part of final registration; hence, registration is incomplete until all the fees have been paid *and the student's matriculation card has been validated (stamped) by the Bursar's Office.*

Courses listed in this bulletin are subject to cancellation if there are not sufficient students registered for the course.

Change of Roster

No course or section may be changed for another course or section without the approval of the Registrar. No change in course will be allowed after the date listed in the Academic Calendar.

Refunds

Undergraduate Summer Sessions

Time of Withdrawal	Refund
Before first day of class.....	100%
During first week.....	60
After first week.....	None

Presession and Other Intensive Programs

Time of Withdrawal	Refund
Before the first day of class.....	100%
During the first day of class.....	50
After the first day of class.....	None

For the purpose of refund, the student shall be considered to be in continuous attendance up to and including the date of submission of proper notice of withdrawal. The notice of withdrawal must be addressed to the Dean of the particular school. Ceasing to attend or giving notice to an instructor does not constitute proper notice. The allowed percentage of refund shall be based upon the official withdrawal date which shall be determined by the date the notice of withdrawal is received by the Dean, or the postmark, if mailed.

For the purpose of refund computation, a week shall be defined as the period of seven successive days beginning with the official College opening of classes and NOT the first day in actual attendance by a particular student.

In those instances where a student's educational expenses were satisfied in whole or in part by Title IV Program Funds, and a refund of these educational expenses is authorized, that refund will be proportioned in accordance with U.S. Department of Education regulations governing refunds and cash disbursements made directly to students. Under those regulations, priority is given to the return of funds to Title IV Assistance Programs in the following order: State Grant Programs, SEOG, NDSL, PELL, Guaranteed Student Loans. Students should be aware that the regulations may prevent the refund of any personal funds used for payment of tuition and fees. In instances where a student has received a cash disbursement prior to the recording of his or her withdrawal, the student may be required to return those funds to the College.

Reinstatement Fee

Any student who was not included on the official class rolls (who has not properly completed the registration process) and who is subsequently added to the rolls shall be assessed a Reinstatement Fee of \$50.00 which, along with all other educational expenses due, must be paid prior to such reinstatement.

Transcripts

Students who wish credits transferred to another institution should fill out a request for transcript of grades at the time of final registration.

Withdrawal

Withdrawal from a class must be made in writing to the Dean of Summer Sessions. The official date of withdrawal (for the purpose of computing charges and grades) is the date on which the Summer Sessions Office receives the written notification, not the date of the writing. Students who fail to give written notice of withdrawal from the Summer Sessions will be charged the full tuition and receive a grade of failure (F) for each course. The final date for withdrawal is noted in the Academic Calendar.

Activities

All facilities of the Student Union Building, cultural and social center of La Salle College campus activities, are open to students attending the Summer Sessions. The air-conditioned Music Room is available for leisurely study, and food services are offered each class day.

Emergencies

Ordinarily, messages cannot be delivered to students on campus. However, under conditions of extreme emergency, the Summer Sessions Office will attempt to locate students during class hours. The number is (215) 951-1234.

Housing On Campus

The residence halls are open to men and to women during each of the summer sessions. Single and double rooms are available.

The Campus Food Service will be open Monday through Friday during the day on a cash basis only during all of the summer sessions. Vending machines are located in the residence halls for snacks. Safety regulations prohibit the use of electrical cooking devices such as coffee makers, heating coils, and hot plates. Small refrigerators are available for rental from the Resident Life Office.

Room assignments and keys may be picked up at the time of occupation. Room occupancy begins at 12:00 Noon the day prior to classes. The residence halls close at Noon the day after the last final exam. Housing application forms must be requested directly from the Resident Life Office.

It is possible to retain the student room during the intervals between sessions. Intentions to stay should be noted at the time of occupancy, so that fees can be assessed.

Fees:

Double Room - \$240 per session, *per occupant
Single Room - \$315 per session*

A reservation deposit of \$100.00 must accompany each room reservation and will be credited to the fees upon billing. To reserve a room, a housing application form, stamped by the Bursar's Office noting payment of deposit, should be submitted directly to the Resident Life Office. Refunds of reservation deposits will be made upon written notification of withdrawal at least 10 days prior to the commencement of the summer session.

The entire room fee must be paid prior to occupancy. If a resident is obligated to terminate residence before the end of the session, room fees cannot be refunded. Some summer employment is available from the Resident Life Office.

Inquiries concerning residency rates, reservations, and housing applications should be directed to the:

Resident Life Office

North Halls Complex

La Salle College

Philadelphia, PA 19141-1199

(215) 951-1550

*Fees subject to change. Final rates will be available in April.

Academic Calendar Five Week Sessions Day and Evening Credit Courses

	Session One	Session Two
Final date for Pre-registration	May 14	June 19
*Registration	May 22, 23 (10:00 A.M. to 11:30 A.M.) (5:30 P.M. to 7:00 P.M.)	June 26, 27
Classes Begin.	May 29	July 9
† Change of Roster and Late Registration.	May 29, 30 (9:00 A.M. to 11:00 A.M.) (5:30 P.M. to 6:30 P.M.)	July 9, 10
Friday make-up class (all Day Courses	June 1	
and Evening Monday and Wednesday, or Monday, Tuesday, Thursday)		
Last date to option Pass/Fail grade	June 4	July 16
Last date for withdrawal without penalty of failure.	June 11	July 23
Final Examinations.	June 27 (Evening M/W schedule) June 28 (Day; Evening T/Th schedule)	August 8 (Evening M/W schedule) August 9 (Day; Evening T/Th schedule)
Grades due	July 3	August 14
Day Classes (Monday through Thursday)	Evening Classes	
Three credit hour classes: First period 9:05 A.M. to 10:50 A.M. Second period 11:00 A.M. to 12:45 P.M.	Three credit hour classes: Monday and Wednesday or Tuesday and Thursday 6:00 P.M. to 9:30 P.M.	
Four credit hour classes: First period 8:30 A.M. to 10:50 A.M. Second period 11:00 A.M. to 1:20 P.M.	Four credit hour classes: 6:15 P.M. to 9:30 P.M.	

*N.B. Tuition invoices are not mailed for Summer Sessions; they must be picked up at either Registration or Late Registration.

† Late registration entails a \$10.00 late registration fee.

Academic Calendar

Ten Week Session

Evening Courses

Special Session
May 29 through August 9

Final date for Pre-registration	May 14
*Registration	May 22, 23 (5:30 P.M. to 7:00 P.M.)
Classes Begin	May 29
† Change of Roster and Late Registration	May 29, 30 (5:30 P.M. to 6:30 P.M.)
Friday make-up classes for courses with Monday evening meetings	June 1
Last date for withdrawal without penalty of failure	June 25
Holiday	July 2 through July 6
Final Examinations	August 8 (for Mon.-Wed. roster) August 9 (for Tue.-Thur. roster)

The two non-credit courses listed below are designed to aid students who are not fully prepared for college credit work in Mathematics. Each course is billed as if it were a three credit hour course. Full course descriptions are listed under the appropriate department.

COURSE OFFERINGS

Dept.	No.	Sect.	Cr.	Title	Time
Csc	151	A	3	Introduction to Computing	Mon-Wed
Csc	151	B	3	Introduction to Computing	Tue-Thu
Csc	153	A	3	Algorithm & Data Structures	Tue-Thu
Csc	254	A	3	File & Data Management Sys.	Mon-Wed
Eng	102	A	3	Writing, 2	Mon-Wed
Mth	011	A	0	Elementary Algebra	Mon-Wed
Mth	021	A	0	College Algebra	Mon-Wed

All credit classes meet from 6:00 to 7:45 P.M. two nights per week. The non-credit Mathematics classes meet from 6:00 to 8:30 P.M. two nights per week.

**Tuition invoices are not mailed for Summer Sessions; they must be picked up at Registration or Late Registration.*

†Late Registration entails a \$10.00 late registration fee.

● Accounting

Accounting 101. **Principles of Accounting 1** 3 credits

Training in fundamental principles of recording business transactions, including study of presentation and interpretation of financial data of a single proprietorship, partnership and corporation.

Accounting 102. **Principles of Accounting 2** 3 credits

Relationship between understanding accounting procedures and using accounting data effectively; interrelationships between financial statements and methods of accumulating data for these statements and how particular accounting methods used influence business decisions. Problems include depreciation methods, inventory valuation, alternative methods of obtaining capital and measurement and control of costs within the corporate entity. Prerequisite: Accounting 101.

Accounting 201. **Accounting Theory—Part 1** 3 credits

Theories and problems involved in proper recording of transactions and preparation of financial statements. Review of the accounting cycle; general discussion of the preparation of financial statements; detailed analysis of theory as applied to transactions affecting current assets, current liabilities, long-term investments, and their presentation on the balance sheet. Prerequisite: Accounting 102.

Accounting 202. **Accounting Theory—Part 2** 3 credits

Includes a detailed presentation of theory as applied to plant equipment, intangible assets, long-term debt, capital stock and surplus; correction of errors of prior periods; analysis of financial statements; and the statement of application of funds. Prerequisite: Accounting 201.

Accounting 303. **Cost Accounting** 3 credits

Basic principles applied to job cost and process cost systems. Topics include: purchasing and issuing of materials and maintenance of perpetual inventory records, control of labor, methods of distributing factory overhead expenses, evaluation of problems involved in shrinkage and idle time, forms used in job and process cost systems, and discussion of necessity and place of cost accounting in modern enterprises. Prerequisite: Accounting 102.

Accounting 304. **Auditing** 3 credits

Modern audit practices, emphasizing principles and objectives of an audit. Analysis of audit basis, best standards, objective reporting, adoption of improved accounting standards, business controls, professional ethics, and legal liability. Prerequisite: Accounting 202.

Accounting 408. **Taxation of Individuals** 3 credits

Gives a comprehensive explanation of federal structure as it applies to individuals and provides experience in the application of tax principles to specific problems. The course covers the following topics: types of returns, rates, business and personal income, sales and exchange; business and personal deductions; and withheld and prepaid taxes.

● Art

Art 101. **Elements of Art** 3 credits

Elements of painting, sculpture, and architecture; applications of principles of several major artists and to major stylistic periods. Ideally suited to the general student as an introductory course.

Art. 352. **Print Making** 3 credits

Basic print processes. Relief and intaglio printing and lithography. May be repeated for credit.

● Biology

Biology 155. **Life Before Birth** 3 credits

For election in the distribution area for non-biology majors. Lecture, visuals, demonstrations, and student investigation illustrate the sequential formation of the human body from production of reproductive cells, through fertilization and organ formation, to birth. In addition, common developmental problems and their causes are discussed. Three hours lecture, no laboratory.

Biology 156. **Variation in Man** 3 credits

For election in the distribution area for non-biology majors. General principles of genetic transmission and their application to man. Discussion of currently developing procedures for genetic control which might have an impact on man, and of existing problems stemming from genetic transmission and chromosomal abnormality. Lecture, visuals, demonstrations, and student investigation. Three hours lecture, no laboratory.

● Chemistry

Chemistry 111-112. **General Chemistry** 4-8 credits

A general course based on physical principals; emphasis on elementary thermodynamics with applications to gasses, solutions, heats of reaction, electrochemistry, ionic and non-ionic equilibria. Concepts of elementary quantum mechanics applied to spectral concepts and the theory of the chemical bond. Reaction kinetics applied to reaction mechanisms. Descriptive chemistry of the representative elements and transition metal complexes. Laboratory stresses the quantitative aspects of chemistry. Three hours lecture, three hours laboratory.

Chemistry 201-202. **Organic Chemistry** 4-8 credits

Chemistry of carbon compounds with emphasis on structure, stereochemistry, synthesis and reaction mechanisms. Applications in allied fields. Laboratory introduces techniques involved in organic analysis, and study of reaction mechanisms. Intended for majors in chemistry, biology, and all students pursuing careers in the health professions. Prerequisite: Chemistry 111-112. Three hours lecture, three hours laboratory; two terms.

● Computer Science

Computer Science 151. **Introduction to Computing** 3 credits

Basic programming and program structure; data representation; survey of computers, languages, systems, and applications; computer solution of several numerical and non-numerical problems. Prerequisite: one year of college mathematics (or taken concurrently). *Carries lab fee.*

Computer Science 153. **Algorithm and Data Structures** 3 credits

Emphasis on development of algorithms for problem solution with programming of several non-trivial numeric and non-numeric algorithms. Elementary data structures: stacks, queues, deques, linked lists, circular lists, trees, binary trees. Sorting and searching algorithms. Prerequisite: Computer Science 151. *Carries lab fee.*

Computer Science 254. **File and Data Management Systems** 3 credits

Introduction to COBOL language for CSC majors. File types and file management. Introduction to data base management systems and random-access data structures in their implementation. Prerequisite: Computer Science 153. *Carries lab fee.*

● Economics

Economics 101. **Introduction to Economics 1** 3 credits

Studies the economic system, including a comparison of capitalistic and socialistic economies and consideration of the influence of government policies on economic activity. Emphasis on the U.S. economy and factors which determine employment, inflation, gross national product, and the money supply. A prerequisite for other economics courses except Economics 320, 411, 412.

Economics 102. **Introduction to Economics 2** 3 credits

A continuation of Economics 101. Topics include: economic problems of the business firm; economic growth of society; urban problems associated with economic growth; economic approaches to ecological issues; international trade issues; economic problems of poor countries.

Economics 213. **Economics and Business Statistics 1** 3 credits

Basic ideas and procedures of statistical analysis with special emphasis on their application to economics and business. Methods of statistical description, index numbers, and time series analyses. Introduction to statistical inference. Prerequisite: Mathematics.

Economics 302. **Managerial Economics** 3 credits

An intermediate-level course in the theory and practice of the firm, designed for non-economic majors with the indicated background courses. Theory and estimation of demand, production, and cost functions; market structures and pricing in theory and practice; selected aspects of linear programming, regulation and antitrust, capital budgeting, and risk analysis. Prerequisites: Economics 102, Economics 213, Mathematics.

● Education

Education 203. **The Learner: Educational Psychology** 3 credits

Study of psychological principles as they apply to the pupil and the learning process. Course requirements include participation in field experience. Prerequisite: Psychology 101. (Formerly, "The Child: Educational Psychology.")

● English

English 102. **Writing II** 3 credits

Writing assignments based upon readings in literature; the research paper. Weekly themes; conferences with instructor.

English 103. **Introduction to Fiction** 3 credits

Analysis of selected pieces of British and American fiction with emphasis on appreciation and understanding of their structural, technical, and aesthetic qualities.

English 160. **Literature and the Sexes** 3 credits

A study of literature as a reflection of the different ways women and men are shaped by their society and of the ways they have related to each other in the private and public spheres. Short critical papers.

English 161 **The Experience of Literature** 3 credits

Examines selected fiction, poetry, and drama, and the way in which the form of a work interacts with its content. Imaginative literature encourages the student to read with increased taste, perception, and pleasure. Short critical papers.

English 162. **Concepts of Heroism** 3 credits

Discusses the hero as a phenomenon that has appeared in various forms in literature from earliest times to the present. Short critical papers.

English 164. **Works of Major Authors** 3 credits

An introduction to the works of several major figures who, because of their timeless appeal, have continued to attract and excite readers through the centuries. Readings include such figures as: Chaucer, Shakespeare, Milton, Swift, Keats, Austen, Whitman, Melville, Eliot, Frost, Woolf, and Faulkner. Short critical papers.

English 166. **American Dreams, American Nightmares** 3 credits

A study of the literary expression of the pioneer "dreams" of progress and freedom, and the "nightmares" they became in the face of war, poverty, discrimination, and industrial and technological revolutions. Short critical papers.

English 206. **Fundamentals of Journalism** 3 credits

Reporting and interviewing techniques, newswriting, copy editing and headline writing, the editorial, the feature story, newspaper makeup and design, libel, and the responsibility of the press. Prerequisite: Successful completion of the College composition requirements.

English 208. **Writing for Business** 3 credits

Provides instruction in planning and executing effective business writing. Students learn to write the documents required of them as professionals: letters, resumes, memo proposals, abstracts, and reports. Prerequisite: successful completion of the College composition requirements.

English 254. **Oral Communication** 3 credits

Speech composition, audience psychology, and techniques of delivery; emphasis on practical speaking experience.

English 270. **Special Topic: American Film Comedy** 3 credits

Traces the roots and development of the comedy genre in American cinema through the decades, examining it both thematically and technically, as an art form, an industry, and a clear reflection of American society. Directors whose work we will screen and dissect include Charlie Chaplin, Buster Keaton, Preston Sturges, Stanley Kubrick, Woody Allen, and Mel Brooks in films such as *Modern Times*, *Dr. Strangelove*, *Young Frankenstein*, and *Love and Death*. To be taught by Mr. William Wine.

English 271. **Special Topic: Contemporary Irish Literature** 3 credits

Explores modern and contemporary Irish literature and the best quality (excluding that of Joyce, Shaw, and Yeats) in the special context of modern social, political, and economic life. Special attention given to superior literary figures and works not well known in the United States – writers such as John Millington Synge, Samuel Beckett, Austin Clarke, Flann O'Brien, Mary Levin, Seamus Heaney, Thomas Kinnessa, Edna O'Brien, and William Trevor. To be taught by Dr. Joseph Phillips.

● Finance

Finance 201. **Principles of Finance** 3 credits

An investigation of the nature and concepts of money and credit; the financial structure of the United States and the sources of credit; effects of Federal Reserve and U.S. Treasury actions on financial institutions.

Finance 202. **Corporation Finance** 3 credits

A broad survey course which covers ratio analysis, basic financial forecasting, profit planning and budgeting along with operating and financial leverage of a business organization. Raising funds in capital and money markets is also given wide coverage in addition to cash management, mergers, acquisitions, corporate reorganization and tax considerations. Prerequisites: Accounting 101 and 102.

Finance 300. **Fundamentals of Financial Management** 3 credits

An introduction to the essentials of financial management with emphasis on working capital management, capital budgeting, capital structure, and risk analysis. Prerequisites: Accounting 102, Mathematics 111, Quantitative Analysis 213.

Finance 301. **Introduction to Investments and Securities Markets** 3 credits

A study of the stock market, its trading operations and regulations. Development of investments policies for personal programs as compared to institutional uses of funds. Prerequisite: Finance 201.

● French

French 101. **Elementary French 1** 3 credits

Familiarizes the student with basic rules governing French grammar and phonetics and provides practice in comprehending, speaking, reading, and writing the language.

French 102. **Elementary French 2** 3 credits

Continuation of the fundamentals of grammar with emphasis on short oral exercises.

● Geology

Geology 101. **Physical Geology** 3 credits

Various physical processes that constantly change the interior and the surface of the earth, including weathering, earthquakes, volcanoes, glaciation, marine erosion, and mountain building. Two hours lecture, two hours laboratory and field trips.

Geology 105. **Physical Oceanography** 3 credits

Physical oceanography with emphasis on tides, currents, waves, chemistry of sea water, and geology of ocean basins. Three hours lecture.

● History

History 112. **History of Western Civilization Since 1500** 3 credits

A survey of European History from Renaissance to modern times. Development of national states and other modern institutions in Europe discussed. Socio-economic changes within the European society considered as a background.

History 115. **History of the United States to 1865** 3 credits

A survey of the American people from colonial days to the Civil War.

History 116. **History of the United States Since 1865** 3 credits

A survey of the American people with particular emphasis upon industrialization, social change, and the growth of the nation as a world power.

History 144. **Topics in African History** 3 credits

An account of the empires, tribes and states of Africa before European colonialism.

History 170. **Special Topic: Science and Society in Western Civilization** 3 credits

Traces the interaction of science and society in western civilization. Theme considered from the earliest scientific notions in pre-historic times, through the Graeco-Roman tradition, through medieval, Renaissance, and 17th-century concepts, into the 18th century. To be taught by Dr. George Stow.

History 240. **Topics: The Middle East in the 20th Century: Key to World Peace** 3 credits

Analyzes development of Western Imperialism in this crucial area, its survival during World War I and II, and the struggle against Colonialism after 1945. Examines Zionism and the product of Zionism, Israel, the dominant state and power in the Middle East today. Studies the rise of the Arab oil states and their influence both in the Middle East and on world economy. Discusses the Palestinian Arabs, fundamentalist Iran with the Ayatollah Khomeini, Khadafi of Libya, and post Sadat Egypt, with a view to what the future holds for world peace. To be taught by Dr. Arthur L. Hennessy, Jr.

● Law

Law 201. **Law of Contracts** 3 credits

Introduces the students to the more common rules and principles governing business transactions; the rights and duties of individuals resulting from contractual and quasi-contractual obligations.

Law 202. **Legal Environment of Business** 3 credits

A study of the politico-legal framework within which business operates. The nature, formation, and application of law to business; the historical development and present constraints upon decision making; the interface of business and the whole of its legal settings. Legal procedure, judicial, legislative, and administrative law considered in perspective.

● Management

Management 201. **Organization and Management of Human Resources** 3 credits

Interpersonal and intergroup perception, communication, individual motives, organizational structure, leadership and management styles and their influences on human behavior, considerations of costs, efficiency, morale, effectiveness, traditional and modern organization theories, centralization vs. decentralization. Experimental approach supplemented with cases and readings.

Management 211. **Organizational Behavior** 3 credits

Business organizations are analyzed in an interpersonal setting with emphasis on the importance of work group behavior, individual behavior, supervisor behavior, intergroup behavior, and organizational change. Relevant findings of behavioral science are examined and related to work and productivity in a modern organization. Case discussions and readings contribute toward the formation of a conceptual framework to better understand organizational behavior and administration.

Management 300. **Introduction to Operations Management** 3 credits

Plant layout, plant location, work methods, inventory control, scheduling, productivity measurement, incentive systems, interrelationships with other departments. Problems from various service and manufacturing industries, including quantitative appreciation of techniques like EOQ, expected values. (Formerly, Management 202).

Management 302. **Operations Management** 3 credits

Focuses on effective management of operations which typically involve a large proportion of the assets, personnel and other resources of organizations producing goods or services. Gives the student the opportunity to develop skills, judgment, and understandings for the management task of analyzing, improving, and operating productive systems. Primary topics are: managerial understanding of equipment and process technologies, work force management, operations planning, scheduling and control, quality and reliability, technological change, and project-oriented operations. Prerequisites: Economics 213, Mathematics.

● Marketing

Marketing 201. **Principles of Marketing** 3 credits

Important principles and factors relating to marketing functions in the American economy. Principal topics are the nature, significance and functions of marketing; consumer motivation; behavior and buying problems; wholesaling and retailing of consumer goods; marketing industrial goods and raw materials; market research and merchandise development; buying, selling, price policies and practices; channels of distribution; and governmental relationships to marketing.

Marketing 302. **Management of Promotion (Advertising)** 3 credits

Economic and social aspects of advertising; a practical treatment of copy, layout and media; effectiveness of advertising, advertising departments and the advertising agency. Prerequisite: Marketing 201.

● Mathematics

Mathematics 011. **Elementary Algebra** No credit

This course provides an opportunity to build basic computational skills in arithmetic and algebra. It is intended for those who are not adequately prepared for Mathematics 101. The course is self-paced; the source material for this course is presented on tape; the student has access to a teacher who provides additional individualized diagnostic testing and instruction. The topics of the course include: sets, signed numbers, fractions, exponents, operations on algebraic expressions, equations, and function.

Mathematics 021. **College Algebra**

No credit

The purpose of this course is to develop a mastery of the fundamental concept of algebra. It is a course intended for those who do not qualify for Mathematics 113. The topics are factoring, fractions, exponents, radicals, graphing, linear and quadratic equations, and problem solving.

Mathematics 101. **Intermediate Algebra**

3 credits

Algebraic operations, linear and quadratic equations, exponents and radicals, elementary functions, graphs, systems of linear equations.

Mathematics 111. **Introduction to Calculus**

3 credits

Fundamentals of differential calculus, concentrating on algebraic, exponential, and logarithmic functions with applications of calculus to the management and social sciences. (In Evening Division, formerly 102 "Survey of Mathematics.")

Mathematics 112. **Calculus and Finite Mathematics**

3 credits

Continuation of Mathematics 111. Topics include integral calculus, permutations, combinations, elementary probability and linear algebra. Prerequisite: Mathematics 111.

Mathematics 113. **Algebra and Trigonometry**

4 credits

Sets; the real number system linear systems; matrices; logarithmic, exponential and trigonometric functions; theory of equations.

Mathematics 120. **Calculus and Analytic Geometry 1**

4 credits

Function: limits and continuity; differentiation of algebraic functions; maxima and minima; curve tracing, velocity, and acceleration; integration with applications to areas, volumes, surfaces and work; the fundamental theorem of the calculus.

Mathematics 221. **Calculus and Analytic Geometry 2**

4 credits

Differentiation and integration of transcendental functions; techniques of integration; improper integrals; conic sections; polar coordinates. Prerequisite: Mathematics 120.

Mathematics 240. **Linear Algebra**

3 credits

Linear equations and matrices; real vector spaces; linear transformations and matrices; determinants; eigenvalues and eigenvectors. Prerequisite: Mathematics 112 or 120.

● Music

Music 221. **Topics: Introduction to Jazz**

3 credits

Jazz from New Orleans Dixieland to contemporary large bands. Evolution as an art of style and form, including Dixieland, Ragtime, Boogie-Woogie, Swing, Bop, Cool, Funky, and some recent jazz-rock innovations. Recommended as an introductory course for non-music majors.

● Nursing

Nursing 401. **Nursing Human Systems: Holistic Orientations**

3 credits

A General Systems Theory view of developing human systems, the person and the family, presented and contrasted with other models of viewing the person, including current nursing models. Impact of theoretical perspectives on nursing practice explored. Medical model and holistic health orientations in care-giving contrasted. Nursing theory and nursing process viewed from a holistic health orientation.

Prerequisite: Successful Validation of Prior Learning in Nursing.

Nursing 406. **Health Care Delivery Systems: Strategy and Change in the Real World of Practice**

4 credits

Traditional and emerging care delivery systems in which nurses practice are analyzed from a general systems perspective. Comparisons between the nursing system and the structure and process of other professional systems are drawn. Trends analysis, planning philosophies and change strategies are introduced. A reorientation toward professional autonomy and newly emerging nursing roles is emphasized. One credit of the four credits is acquired through a non-directed, self designed project relevant to theoretical concepts presented in the course. *Restricted to students accepted as Nursing Majors in the La Salle College BSN degree program.*

Prerequisite: Nursing 320

● Philosophy

Philosophy 161. **Human Nature and Human Destiny**

3 credits

A study of man including the questions of his identity and of his relationship to others and to the material world. Themes discussed include those of freedom and love, the dilemma of self-alienation, and various manifestations of concern with human destiny.

Philosophy 162. Foundations of Moral Life 3 credits

A study of philosophical interpretations of moral life and their application to specific problems. Themes discussed include the nature of commitment and responsibility, the problems of conscience and moral law, the character of moral judgment, and the notions of the good and the common good.

Philosophy 164. Critical Thinking 3 credits

Aims at developing the skill of analyzing, interpreting, and criticizing arguments from a variety of disciplines. Topics include: clarification of concepts, distinguishing between conclusions and reasons for conclusions, evaluation of arguments, and the recognition of fallacies.

Philosophy 166. Reason and Reality 3 credits

A study of the basic relationships between thought and reality. Themes discussed include skepticism and truth; rationality and selfhood; and knowledge and the various manifestations of existence.

Philosophy 167. Philosophical Approaches to God 3 credits

A study of philosophical positions relating to questions about the existence of God. Themes discussed include various concepts of God; the possibility of proof for the existence of God; and the philosophical dimensions of the religious experience.

Philosophy 169. Work and Culture 3 credits

A philosophical consideration of the relationship between work and other dimensions of human life. Topics include: work and society, work and rationality, work and morality, work and play, work and creativity, work and alienation.

Philosophy 203. American Philosophy 3 credits

Vital American thought in three periods: New England transcendentalism; the classical group (Pierce, James, Royce, Santayana, Dewey, Whitehead); and the contemporary movement as seen in the philosophies of Perry, Hocking, Mead, Sellars, Lovejoy, and Brightman. American thought in its relationship to pragmatism, process philosophy, and personalism.

Philosophy 206. Social Philosophy 3 credits

A critical examination of the nature and origins of society through the reading and discussion of some of the primary philosophical texts. Themes include: person and society, human rights and law, justice and society, culture and society, the natural and the social sciences. Particular problems considered will include the black experience in American society.

Philosophy 213. Philosophy of Sports 3 credits

A philosophical investigation of sports and athletics and their significance as a basic human experience. Topics include sports and the achievement of human excellence, sports as a basis of social and cultural structure; and the analysis of sports in philosophical movements such as Marxism and existentialism.

Philosophy 222. Love and Human Sexuality 3 credits

A philosophical exploration of human love and sexuality. Attention will be given to the connection between the philosophical approach and that of other disciplines. Works by authors such as Plato, Aristotle, Thomas Aquinas, Santayana, Ortega y Gasset and Sartre will be read.

Philosophy 223. Perspectives on Death 3 credits

Various philosophical strategies for coming to terms with human death. Western and non-Western sources are used. Philosophical views on death applied to problems such as aging and dying, suicide and euthanasia, medical conquest of death, and definitions of death. Of particular value for students choosing careers in the health profession.

● Physics

Physics 105-106. General Physics 1, 2 4-8 credits

Vectors, elementary mechanics of point particles and rigid bodies, gravitation, simple harmonic motion and waves, electromagnetism, D.C. and A.C. circuits and elementary optics. Three hours lecture, two hours laboratory. Prerequisite: Mathematics 120.

● Political Science

Political Science 102. **American Federal Government** 3 credits

The organization and functions of the federal government of the United States; a study of the separation of powers and relations with the states. Required of all Political Science/Public Administration majors.

Political Science 104. **Western European Politics** 3 credits

Political analysis of the constitutional principles and governmental organizations of England, France, and Germany.

Political Science 271. **Special Topic: Mass Media and Politics** 3 credits

Studies the origin, limitations and influences of the various forms of media within the political system. Traces the major effect Twentieth Century media has had on political institutions and speculates about the future of changing media forms in relation to democratic values.

Political Science 272. **Special Topic: Presidential Elections** 3 credits

The role of presidential elections examined within the framework of the electoral process. Focuses on the 1984 election. What are the advantages and disadvantages of the incumbent? What will be the major issues and the strategies of the candidates? How does the electoral college influence presidential elections? At the end of the course students should be thoroughly familiar with the presidential electoral process. To be taught by Mr. Kenneth Hill.

● Psychology

Psychology 101. **General Psychology 1** 3 credits

Introduction to the scientific study of human behavior. Emphasis on methods of psychological research and principles and theories developing from this research.

Psychology 112. **Personnel Psychology** 3 credits

Introduction to the methods and empirical findings of personnel psychology. The use of psychological techniques practiced in the recruiting, interviewing, testing, selecting and placing of employees. Preliminary training in the use of psychological tests for measuring intelligence, aptitude, interest and personality.

Psychology 203. **Developmental Psychology** 3 credits

A general study of the development of behavior and the human personality from conception through adulthood; special emphasis on childhood and adolescence. Prerequisite: Psychology 101.

Psychology 210. **Statistics I** 3 credits

An introduction to statistics, emphasizing such descriptive measures as central tendency, variability, and correlation. Prerequisite: Mathematics 111-112 Day; Mathematics 101-111 Evening.

Psychology 211. **Statistics 2** 3 credits

An intermediate course in inferential statistics, emphasizing such techniques as the analysis of variance and t-tests. Prerequisite: Statistics 1 or equivalent.

Psychology 315. **Abnormal Psychology** 3 credits

An introductory course surveying the principal forms of the major and minor mental disorders, with emphasis on the causes, symptoms, course, and treatment. An analysis of the over-all problems of mental illness and a study of certain borderline personality and behavioral patterns and other forms of psychological deviation. Prerequisite: Psychology 101 or permission of chairman.

● Quantitative Analysis

Please see listing for Economics 213.

● Religion

Religion 161. **The Bible as Religious Literature** 3 credits

A study of the Bible focusing on the religious and human experiences of those who, under divine guidance, wrote it. An analysis of Jewish and Christian religious literature in general. The literary genres of the Bible. External circumstances that exerted an influence on the composition of the Bible. Directed reading in the Bible accompanied by explanation, interpretation, and discussion of principal ideas.

Religion 163. **Dynamics of Religion** 3 credits

Studies diverse patterns of thought and behavior that express man's religious experience. The universality of this experience, and the different ways it manifests itself in the great religious traditions, east and west, primitive and modern. Identifies common elements of these religious traditions as well as those elements which set one tradition off from another.

Religion 164. **Religion and the Contemporary Search for Self** 3 credits

Contemporary meaning of self-discovery, seen in the context of those socio-religious values which contribute to an individual's sense of personal identity. Religion as an expression of the deepest dimension of human life leading to an appreciation of the possible variety of such expressions in terms of personal self-understanding.

Religion 165. **The Religious Vision of Modern Literature** 3 credits

Religious presuppositions and attitudes underlying and shaping modern literature. The ways in which questions raised by modern authors relate to answers traditionally found in religious faith. Selections studied include Dostoyevsky, Beckett, Kafka, Eliot, Camus.

Religion 166. **Religions of the East** 3 credits

Surveys the living religions of the world that lie outside the Judeo-Christian tradition. The sacred literature, historical origin and development, basic beliefs, religious practices. Centers on Hinduism, Buddhism, Confucianism, Taoism, and Islam.

Religion 167. **Catholicism in the Modern World; Problems and Challenges** 3 credits

Religious and social forces shaping present-day Catholicism. Vatican II: a catalyst for change. Liturgical reform. Biblical Renewal. Ecumenism. Women's movement. Freedom and authority in Church structures. The challenges to Catholic education. Contemporary movements; charismatic religion, traditionalism. Influence of American culture on the Church in the United States.

Religion 210. **Old Testament Themes** 3 credits

The origin and development of biblical traditions and theological themes: God, man, the meaning of life, the Exodus theme, prophecy, etc. studied in both their Old Testament context as well as their relation to the New Testament.

Religion 221. **Contemporary Christology** 3 credits

Survey of the post-biblical developments concerning the person and mission of Jesus with emphasis on the contemporary attempt to reinterpret Jesus as Man and God.

Religion 223. **Contemporary Moral Problems** 3 credits

A comprehensive examination of selected moral issues of current interest: violence, war, love, freedom, situation ethics, abortion, euthanasia, human values, sin, genetic engineering, etc.

Religion 230. **Religion In America** 3 credits

Major religious movements within the Roman Catholic Church and Protestant churches in the United States from the American Revolution to the present. Investigates the theological implications for the churches of such movements as the American Revolution, the Great Awakening, the Abolitionist Movement, the Civil War, the Gospel of Wealth, the Great Depression, World War II, and the Atomic Age.

● Sociology

Sociology 101. **Introduction to Sociology** 3 credits

Study of American society. Emphasis on sociological concepts, theories and methods for gathering data on social realities.

Sociology 111. **Marriage and Family** 3 credits

Marriage and the family as social institutions. A consideration of the historical development of the family, variations of family structure in contemporary societies, and current trends in American family patterns.

Sociology 212. **Minority Groups** 3 credits

Examination of the racial and ethnic groups that compose American society. Emphasis on the processes involved in social change in intergroup relations.

Criminal Justice 323. **Criminal Procedure** 3 credits

Broad spectrum view of the development of modern criminal procedure with emphasis on Constitutional Law. Designed to address and understand the sociological upheaval and resultant societal changes effected by the recent pronouncements of the Courts, and to acquaint the student with a variety of constitutional problems that can arise in criminal cases. Designed to interface with Criminal Justice 223E "Criminal Law."

Social Work 370. **Special Topic: Child Welfare** 3 credits

Affords an opportunity to develop broad knowledge of the child welfare system. Begins with a historical and cross cultural perspective, moves to an understanding of the structure and function of services to children in need in contemporary America. Reviews current legislation, issues and trends to facilitate an understanding of political and economic forces upon such services as income maintenance, adoption, institutional care, foster care and counseling services. To be taught by Ms. Sybil Montgomery.

● Spanish

Spanish 101. **Elementary Spanish 1** 3 credits

Familiarizes the student with basic rules governing Spanish grammar and phonetics and provides practice in comprehending, speaking, reading, and writing the language.

Spanish 102. **Elementary Spanish 2** 3 credits

Continuation of the fundamentals of grammar with emphasis on short oral exercises.
